## Congress is Ready to Agree

## NO "HALF-WAY" MEASURE

## President Willing to Pay but Won't Stand for Sham Inspection

(Scripps-McRae Dispatch.)  
WASHINGTON, June 16.—The president will get all he demands in the inspection bill.

In the absence of Wadsworth the committee met today. It is clearly the disposition of the committee to yield to the president.

Cannon is willing to accede and the president is willing the government pay the inspection.

In a letter today, concerning in particular the court review and adjustment provision of the Wadsworth amendment to the meat inspection bill the present says:

"Such a provision does not represent a desire to secure the constitutional rights of any man. It represents, doubtless, in some cases, honest though mistaken convictions, and in other cases it represents a deliberate purpose to interfere with effective administration by trying to provide that the courts shall in reality do the administrative work, when they shall be th first to assert their inability to perform it.

"I wish to repeat that if this provision is enacted into law it will nullify the major part of the good which can be expected from the law. You say the packers want a rigid inspection law. If they do, they will insist upon this provision being taken out of the bill.

"I care not for the language of the bill; I want a bill that will force a rigid and thorough and not a sham inspection. I will accept any changes in the bill that shall secure this end."

## INSURANCE GRAFTER GETS THREE AND A HALF YEARS

## At Norwegian Church Social and Churchmen Want Them Punished

For the second time in 24 hours the North Norwegian Lutheran church was the victim of robbery, when it was despoiled of moneys last night. The loss was not as aggravating or as heavy as that incurred by the church robbers Friday night.

The robbers last night were boys whose ages ranged from 9 to 13 years. A sociable was being held in the church parlors, and the little fellows cut the screen and secured a cup in which the money paid by guests for their refreshments, and a

## FRACTURED SKULL MAY HAVE KILLED

## Some Doubt About Manner in Which Louis Miller Died at Bastile

Louis Miller of the north side, whose father, Louis Miller, died in his cell at Central station, claims his skull was fractured and that this and not heart failure caused death.

Dr. Rowles who was called immediately after the old man's death, pronounced it a case of heart failure, but after calling in Dr. Luieck of the north side the latter made an examination and declares there was a small fracture of the skull, though he is undecided whether it was sufficient to cause death.

The prisoner in the cell adjoining saw Miller fall to the floor, and it is possible his head was injured in the fall. If this is not the fact the case is a mystery.

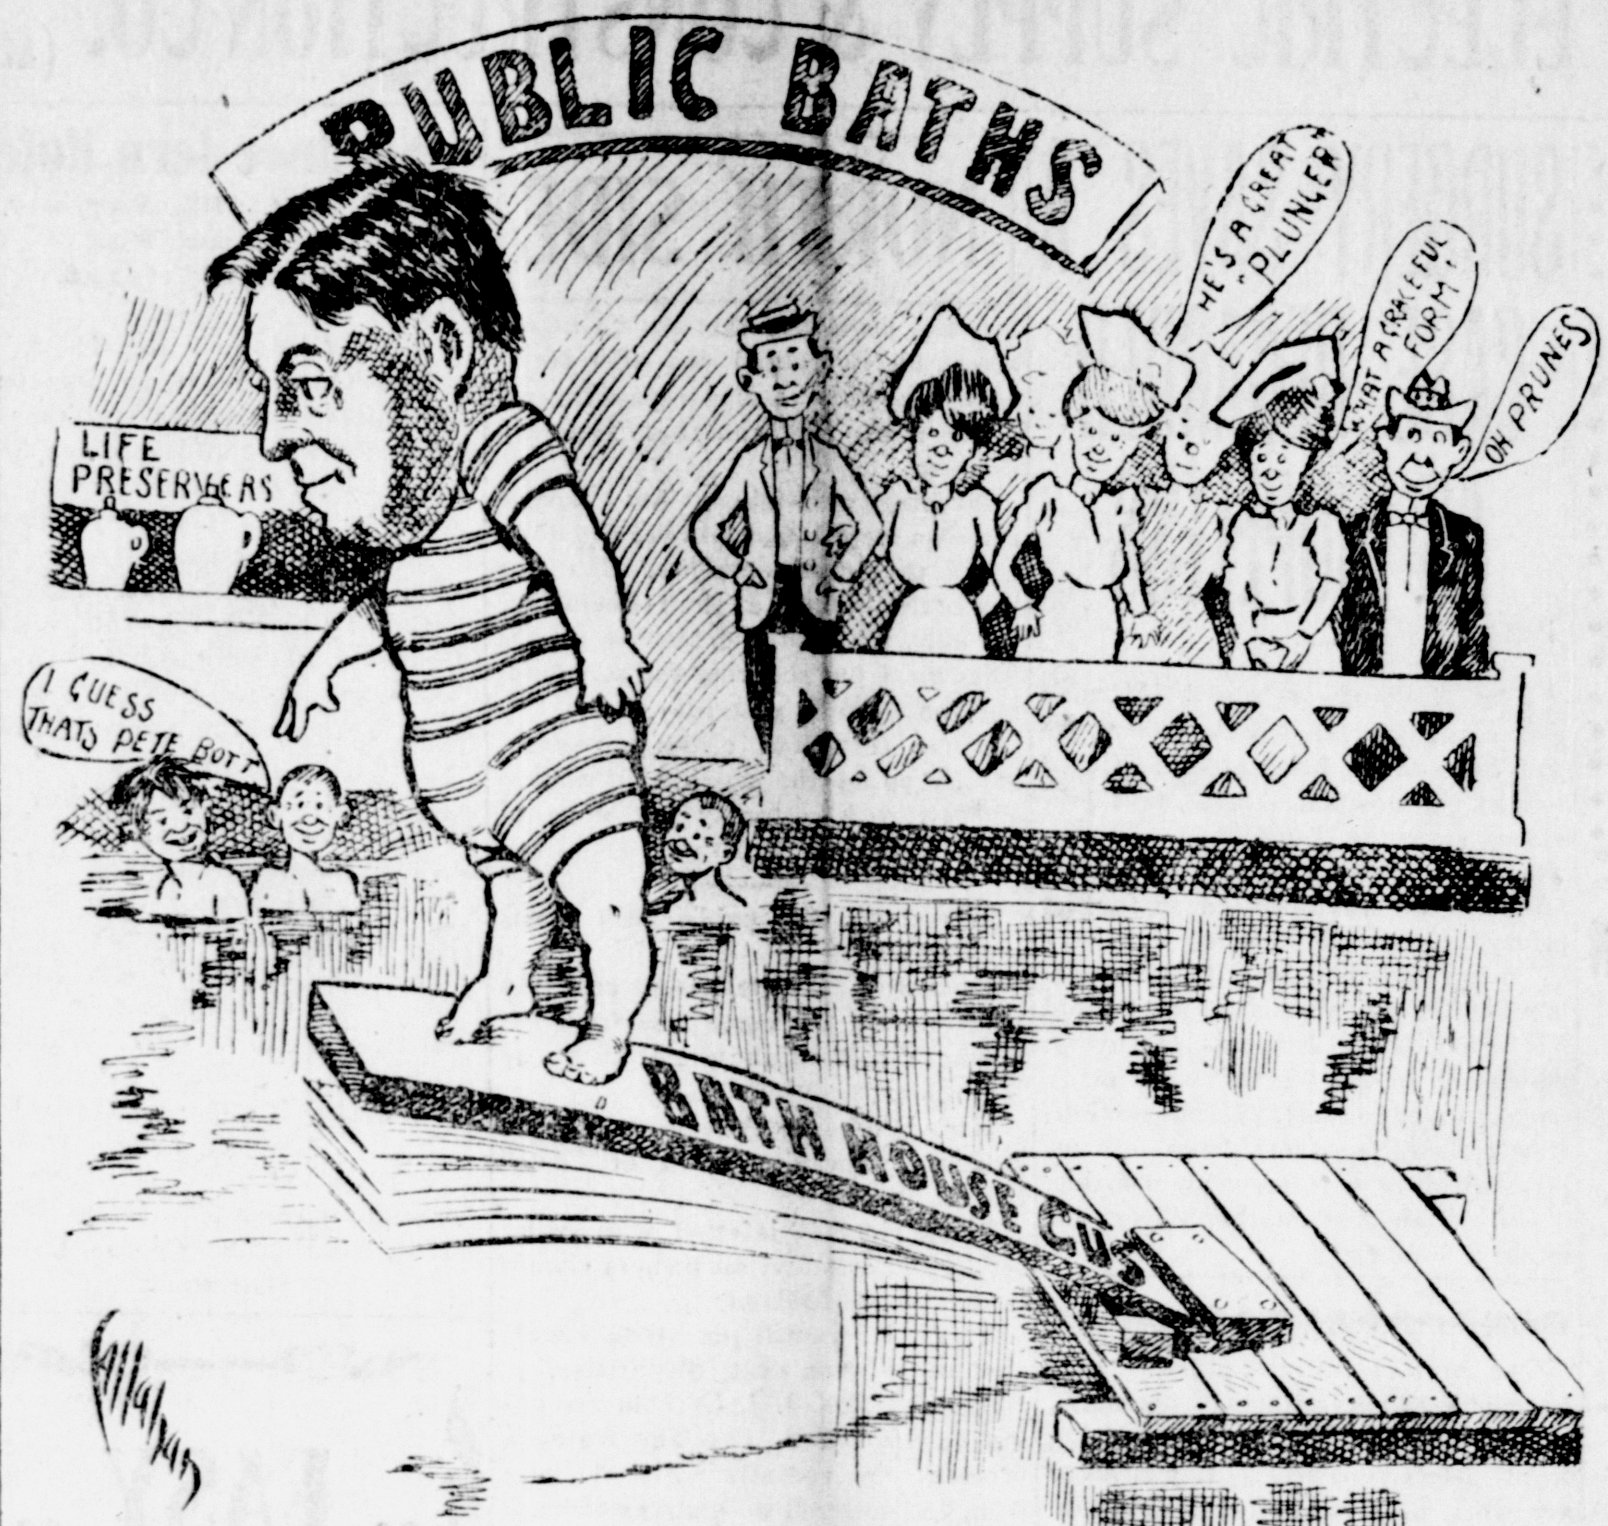

At the time he was arrested Miller was intoxicated and had been sleeping in the court house park, being found there in a stupor by an officer.

Miller Not Abused.  
Investigation at the police department shows that Miller was brought to the station by Officers Coady and Yoltan, who found him helplessly drunk and led and coaxed him to a cell. He fell to the floor in walking about the cell, according to the story of another prisoner. He was subjected to no harsh treatment, and was accorded the usual care given prisoners. Chief Byrne said that any complaints of mistreatment were probably of a malicious nature.

Physicians Says Accident.  
Interviewed by The Tribune this afternoon, Dr. C. W. Luck said that he found that Miller had a small fracture of the external portion of the skull. He said that a post mortem would have been required to determine whether the interior skull bones had been fractured, but that he believed they were not. He said further that there was scarcely a possibility that the wound could have been fatal, and that it could readily have resulted from stumbling or falling against a corner or any hard protrusion. He belittled the idea of violence having been used, as there were a thousand ways an intoxicated man might have received the injury by accident.

Rev. Prof. Alfred Ramser, A. M., of Chicago, will preach tomorrow morning at 10:45 at the English Lutheran church, upon the topic, "Ministerial Education."

## GREAT GROWD AT BATH OPENING

Come on in, the water's fine!  
More than 1,000 people were present at the formal opening of the public baths this afternoon. The day was an idea one, and the water was tempered to a turn.

Alderman Keller, father of the public baths, was a marked man among the crowd, and with face beaming with delight he greeted the lovers of aquatic sports who stopped him frequently to say words of approval and gratification. It was a most satisfactory day for Mr. Keller.

The board of public work was there in its entirety, and had an eye to the accommodation of patrons. The mayor had not arrived at the press hour, but was momentarily expected. Other city officials were seen, and the faces of all reflected the pleasure to which Gus Keller gave expression.

No accident occurred to mar the pleasure of the afternoon.

For over an hour Kreutz's orchestra, seated in an effective position on the bath house porch with its walls as a deflector, entertained the swimmers and spectators with delightful music. Swimmers by the score entered the water, and the afternoon was one of the most enjoyable ever spent at the public baths. There were frequent comments of approval upon the improvements, and the old corps of assistants aided the director to afford accommodations to the guests. He shook hands with many of the old patrons and with young people who learned to swim under his instructions last year.

The supply of bathing suits was wholly inadequate to supply the demand, and many remained in line awaiting a chance to secure a suit.

## THANK FANS FOR THEIR ATTENDANCE

## Baseball Officers Express Themselves Through the Tribune

La Crosse, June 16, 1906.  
Editor Tribune:

Kindly permit us to use your columns to thank the people of La Crosse for the splendid patronage given the baseball association during the Freeport series. It may appear that we have been too emphatic and persistent in urging attendance at the games, but it is a fact that only a continuance of the present support will enable this city to make good as a baseball town. Were the smaller Wisconsin cities failing to support their teams, we would feel less mortification over the failure of this city early in the season to support a championship team. La Crosse is still at the bottom on average attendance, but the past two days indicates that interest has been awakened, and that we are to have a self-sustaining ball team. We thank the public for the good nature and genuine enthusiasm with which they have responded to our efforts to entertain them with first class baseball.

# SLAUGHTER OF JEWS IN RUSSIA CONTINUES TODAY

## DO NOT WANT US TO AID SUFFERERS

## Shelby Insurance Company Takes First Step to Relieve Them

The people living in the territory contiguous to the area recently devastated by the cyclone that passed south of this city, have sent a strong intimation that, while the kindly efforts of La Crosse people to aid the sufferers are appreciated and held in grateful remembrance, they are of the opinion that they should care for their own unfortunates.

The movement here to assist the unfortunates was started by Mr. Henry Boehm, of The Continental Clothing company, who with some friends made a tour of the stricken district in an automobile. The board of trade and private citizens took the matter up, and the plan to secure assistance here is well under way.

Herman Roessler, county treasurer, who is president of the Shelby insurance company, is the leader in the movement for home relief to the needy. Mr. Roessler said this morning that the insurance company had taken an interest in the matter through its officers, himself and Secretary Kienholz having taken steps to take stock of the amount of damage and the needs of the afflicted today. The plan is to make an appeal through circular letters to the subscribers to the insurance of the company. The offerings will be voluntary, the funds of the company not being subject to the disposal of the officers in the matters of his sort.

The insurance company has underwritten insurance to the amount of more than \$3,000,000 and has over 3,300 subscribers. It is expected that ample help will be given immediately when the call is made.

Mr. Roessler said this morning that the raising of the money was no trouble, but that its disposition was a problem. He desires to contribute only to the needy, and expects some difficulty in discriminating in a manner to give satisfaction to all. He was in consultation with Judge Ray S. Reid, secretary of the board of trade, concerning this feature of the work this afternoon.

## TRYING TO MAKE PRESIDENT SEE HIS "ERROR"

(Scripps-McRae Dispatch.)  
WASHINGTON, June 16.—Sentiment in the house today seem to be to "make the president see his error."

Cannon approves the sharp tone of Wadsworth's letter. A number, after the conference at the white house, think he convinced the president the bill provides a sufficiently rigid inspection.

Mrs. Fred Stinnerman of 302 Calchodonia street, passed away this afternoon at 2:30 o'clock. Death was due to heart trouble.

## ACCEPT NEW ABATTOIR ROAD

The roads and bridges committee of the county board of supervisors returned yesterday afternoon from an inspection of the new abattoir road, complaint of the durability of which was made at the time of their departure to view it yesterday.

## At Last Mob Swarms Upon Them and Slaughters Hapless Defenders

(Scripps-McRae Dispatch.)  
WARSAW, June 16.—It is reported the massacre at Bialystock continued unabated today.

The suburban town of Bojary is reported destroyed.

The massacre is extending to neighboring towns.

BERLIN, June 16.—Voorwarts states the banishment of political prisoners in Russia to Siberia continues with unusual activity. Thousands were sent during May.

The Jews positively deny the statement of the government that the Bialystock massacre was caused by Jews throwing bombs at a religious procession.

After the riots continued several hours a number of young Jews banded together for their own defense, and fought the 'gentile rioters' desperately.

Eighteen young Jews were driven into the outskirts of the city and barricaded themselves in a house. They were attacked by three hundred rioters.

The Jews fired until their ammunition was exhausted and then hurled missiles and boiling water upon the heads of the besiegers. The Jews held out some time, but the mob won and swarmed up stairs, the defenders fighting every inch, and butchered the eighteen youths.

The German Jewish association has received a preliminary report from the investigators sent to Bialystock, showing 200 were killed and 450 wounded during the outbreak. They say probably a complete investigation will show many more casualties.

## PAPER TRUST TO RESUME

Judge Sanborne took the matter under advisement today. It is presumed the defendant, proposes to resume business.

Grim Reaper's Scythe too Slow to Decrease Our Humanity

Health Officer Major says that there appears to be a Rooseveltian spirit prevalent here. Births are running ahead of deaths at a rate to make the city populous. The records show this, notwithstanding the fact that physicians have pigeon-holed the records of many births.

The health department announces that contagious diseases in this city have been reduced to a single case of scarlet fever.

The prevalence of healthfulness is credited to the exactness with which sanitary conditions are being established and maintained. The cleaning of alleys has been carefully gone over, and strict scrutiny is being maintained to prevent further accumulations of filth. A campaign for the cleaning of out houses, etc., has been going on for some time, and a vigilant watch is being kept on disease breeding conditions in all parts of the city.

Alderman Norris Bacheller of this city is in Billings, and owing to his acquaintance with the country and knowledge of proceedings of this sort, he has been resolved into a sort of information bureau for the benefit of La Crosse county land seekers. Mr. Bacheller writes that some good land is to be had, but that the best of it has been "reserved" by the order of the government.

Warned of the dangers of burglary by the story of the church robberies in The Tribune last evening, a prominent north side businessman carefully counted his money last night, and after leaving it on the show case double locked the safe and hastened home leaving the outside door of his store unlocked. A night policeman discovered the open door and the unprotected cash drawer during the night, and took steps to safeguard the place. The officer declined to make public the name of the gentleman whose extreme caution resulted so amusingly.

## SURGERY SAVES A CASE REGARDED AS HOPELESS

John Solberg returned Monday evening from La Crosse where he had been since bringing his injured son to the hospital several days previous, says the Lanesboro Leader. The little fellow is getting along fine since he was operated on for the injury he suffered in being run over by a heavy load one day last week. The attending physicians now hold out good hopes for his recovery, which will be good news to the many friends of the family. If Master Marian Solberg recovers from his injury, which now seems very probable, it will certainly be another victory for modern surgery.

## NORTH SIDE

It has developed that the Caledonia street M. E. church was also entered by the thieves who ransacked the other north side churches Thursday evening.

Nothing was taken, but burned matches were found all over the floor, as in the other churches. No clue has been obtained of the robbers thus far although all the detectives on the force were out scouring the surrounding vicinity yesterday.

Three suspicious characters were locked up at the north side station and sweated yesterday but none of them were held.

## PAY PREMIUMS ON MATERIAL TO FINISH THEATRE

Work on the La Crosse theater is progressing, and Manager Gage is confident that the structure will be completed on scheduled time, which is September 1st.

The fire wall has been finished, and the work of raising the great roof has been begun. The auditorium will be greatly amplified by thus lifting the roof and making way for more

seats in the upper portion of the rear. In order to keep up to the schedule the contractors have been compelled to pay premiums on a considerable portion of the materials used in construction. This is because of the immense demand for material used in rebuilding San Francisco, all orders from that city being given the preference.

## ASSETS OF DEFENDANT IN MEXICAN SUIT ENCUMBERED

Plaintiffs in the suit against the Mexican Plantation Company are said to have been examining records showing the condition of real property owned by defendants, and it is learned that some very considerable "plaster" were found on some of the real estate. The Beck property at Fourth and Main streets carries an incumbrance of \$1,500.00, running to the

Northwestern Life, and bearing date in November. Another older mortgage is on record, and are also incumbrances and one sale affecting other property.

While the last mortgage filed was so recent as to have been within the shadow of the pending litigation there is no intimation that there exists any connection between the two.

When the Doctor says "it's coffee, stop it if you want to get well."

Oh dear, what a mean doctor, but then plain facts are best to know, so we may cut out the things that hurt.

About 4 years ago a Cin. man went to Germany for his health and to consult one of the famous physicians in Berlin.

The Dr. found him a nervous wreck suffering from loss of sleep and constipation and about 50 lbs. off his usual weight.

But let him tell his own experience:

"The Dr. surprised me very much by asking at once if I was a coffee drinker and on my telling him I used it two or three times a day he said 'It is poison to some persons.'

"After carefully examining me he told me there was nothing the matter with me whatever but what could be entirely cured in 30 days by letting coffee and other stimulants alone and dieting.

"So I put back home and wife got some Postum Food Coffee for me.

"The first trial didn't please me but we found it hadn't been boiled enough. The next meal it was fine.

"I seemed to begin to get well at once and kept it up until I gained back my 50 lbs. and all the old sick times from coffee left for good. Now I am in prime health, fine appetite, and sleep like a boy."

La Crosse turned out in fine style yesterday to see La Crosse's champions put the Freeporters out for a second game in the series. The game was a fine exhibition and fully repaid the immense crowd which attended.

In the third La Crosse scored 3 runs and Freeport came in with one, and in the eighth things were made lively by Freeport tying the score with two more runs on a fumble.

A wonderful bit of playing by La Crosse in the ninth inning brought in another run and won the game.

It is said that a Freeport businessman informed the Freeport team that he would meet them at the depot with a band when they returned next Tuesday if they succeeded in "doing" La Crosse out of three games of the series. It is now a cinch the Pretzels will tramp from the train without any music.

## Dangerous Kidney Diseases Cured.

WHEN the kidneys become affected by catarrh, either from colds, overwork, or an extension of catarrh from some other organ, they fail to perform their normal functions.

It is the work of the kidneys to excrete from the blood many of the poisons which accumulate in the body.

If the kidneys fail in their work, the poisons accumulate to such an extent as to cause convulsions, which often prove fatal.

Peruna, by relieving the kidneys of their congested and catarrhal conditions, leaves them free to act in a normal manner.

It also strengthens the action of the heart, equalizing the circulation of the blood in all parts of the system.

### CANNON TAKES A TUMBLE.

It is nice to have a line on our friends. "Raymond," writing from Washington to the Chicago Tribune, gives us a good line on Uncle Joe Cannon, the fossilized automaton who wields the gavel of the lower house in the interests of all the stand-patism and pro-trustism of the century. Not that any information was necessary, for everybody knows that Speaker Cannon has been industriously making a political hash of himself by echoing every growl of the financial buccaners who are wincing under the cat o' nine tails of public opinion. Read what Raymond says:

"Speaker Cannon, who is generally responsive to public opinion when he is convinced that it is the real thing, has yielded to the clamor aroused by the legislative strangle of the pure food bill and announced today that he is prepared to report a rule giving two days' consideration of that measure beginning on Tuesday.

"This action is in line with the request of President Roosevelt, who wrote a letter to Speaker Cannon intimating that the pure food bill was a matter of such immense importance to the people, particularly at this time in view of the revelations in the meat business, that the house ought to take immediate action.

"Speaker Cannon has been opposed to the president on the meat question. His sympathies have been with Chairman Wadsworth and "Billy" Lorimer, and he was supposed to be favorable to the substitute they reported for the Beveridge amendment. That substitute was carefully devised so that the packers might be free to label their goods as they saw fit."

Entertaining to know Uncle Joe has at last decided to "permit" the passage of a law making the selling of poisoned foods a crime, isn't it? The wonder is that he didn't "stand pat" and defy the president. Here we are fighting to stop the crimes of trustdom, and an old fellow who is presumed to be our representative has the everlasting impudence to hem and haw and filibuster to prevent us from escaping the deadly dose foisted upon us as food by the most putrid lot of commercial cutthroats ever permitted to escape the rope by a people rendered oblivious to their crimes by hasty eating and overwork.

Raymond says Speaker Cannon has his ear to the ground. If that be true, he must be hard of hearing, else the rumble of an angered people would have driven him helter skelter into the liberal camp. It is time for the people of Mr. Cannon's district to search out a quiet retreat in which he may spend the remainder of his dotage.

And in the meantime, thanks to the president and to men like our friend John Esch, and no thanks to Uncle Joe the stand-patter, it begins to look as though the scheme of the poisoned food yeggmen to sidetrack the law that aims to kill their graft would meet with the fate it deserves. No matter has come before congress in years that is of mightier importance than the pure food bill.

### CROWDS, AND THE HOME TEAM.

With the grandstand crowded yesterday, that telephone cartoon was rather malapropos, but just keep it under your hat until it is needed. It is to be hoped you will have to keep it there until the hat wears out without needing it.

These last two ball games have been well patronized, and they deserved to be. Attorney C. L. Hood was heard to say that Thursday's game was the most entertaining he had ever witnessed. We do not quote him with authority, nor do we know that Mr. Hood is a baseball expert, but he is no unreasoning enthusiast, and what he said was what many other men who were there said and what many who were not there would have said had they been there.

The fact is, you have no business not to go to these ball games. It is a duty you owe La Crosse. Many people will say The Tribune gave some bad advertising to La Crosse in its cartoon yesterday. It did, and more was deserved. These games have not been supported. Good baseball will advertise La Crosse, but bad baseball support will advertise it more. And a newspaper that prints the news truthfully and represents conditions fairly, is bound to advertise the city as what it is. It is worth while, therefore, to be the right kind of a city in everything from business to baseball.

The attendance at the last two games has been indeed encouraging. The thing to do is to keep it up. The management has used the columns of The Tribune today to say to the people that it is grateful. Grateful for what? Grateful for what every management in the league outside the city of La Crosse has had without asking and accepted as a matter of course. Don't make it necessary for the baseball association to beg you to witness such excellent baseball as has been afforded the people of La Crosse. Batterup!

Pink is probably dazed by the good things coming his way—two vic-

tories over Freeport and a full grandstand. And the boys entertained the crowd in grand shape, too.

Just wait until Chris Burns gets that car of fruit unloaded!

Next to the ghoul, the thief who preys on churches is the most damnable of crooks.

Palmer, Hodge, Duncan and Robertson running for office? What's gone wrong with the livery business?

The Plantation suits are getting hot. Now if these retorts court-cous were only so much per line, it would be fat.

"Prosperity be thy page!" is one of Shakespeare's benedictions. "Page"-ads, usually presage prosperity in a store.

### JUST LIFE

The New Fad.

The society editor was fussing over a pile of news items; some dainty, well penned missives, others illegible, penciled scrawls—the accumulated contributions of the week for the society columns.

"I DO wish people would write plainly," she complained. The rest of the force groaned for silence.

"Now what IS this name," she rattled on and the cub-reporter had to stop his work to decipher seemingly senseless hieroglyphics.

"Let's see: C-y-p-e-l-e-s-k-i-o-w-i-t-z, that's it, Cypel-skiowitz."

"Heavens," she murmured, "what a name!"

Peace reigned for 15 seconds.

"Now WHAT does this mean?" wailed the Vanity Ticker, again.

This time it was not so easy, but the cub went at it bravely.

"U-n-u-m—entertained at twenty-three, Scodde party and all enjoyed the—, what's that mean?"

"I don't know. What—you tell."

"U-n-u-m, 'at a twenty three scodde—"

Then the light broke over the situation.

"Evidently it means a '23—Skidoo' party," grinned the cub.

"I'll bet that's just what it is," sighed "she." "I have heard that those '23-Skidoo' parties are growing to be a fad."

So it is that La Crosse society has a new entertainment, though just what is done at a "23-Skidoo" party is a mystery to the uninitiated.

Now if we can only make it four straight on the "Robbers," Pink and the boys should be banqueting.

The surest evidence that Standard Oil wants Bryan defeated is its enthusiastic announcement of support. The people, however, are done swal-

lowing such bait.

The "tendencies of the times" is a fruitful theme for discussion just at the present time, as one of the natural consequences of the many reform movements that are being simultaneously pushed to the front. **J**UNE, the month of weddings is also the month of wedding presents. It is the month of Cupid, and that means the month of engagements as well as of weddings. The little god finds every day in June his busy day.

The engagement ring comes before the wedding ring. It should be a diamond. The purity and refinement of this gem renders it peculiarly appropriate as an expression of deep sentiment. It need not be a large diamond, but it should be a jewel of the first water. A small diamond of excellent quality is better than a larger stone with even an obscure flaw.

The plain circlet of gold used as the conventional wedding ring is selected as a matter of orthodox ethics. There is no variation from this rule. The one requirement is that it be purchased at a reliable store so that there can be no doubt about the purity of the gold that is emblematic of the pure love in token of which it is given.

The rule that should be followed in these matters is to buy the best for the best girl of your life. Don't listen to advertisements of "bargains", for there are no bargains in goods of this sort. They are staples, and the only bargain is to get the very best. To do this go to a store that has a reputation to stake upon its dealings. In La Crosse young men will not offer their fiancée or bride a ring that is not incased in one of those handsome boxes that bear the name of

## TAYLOR HAS "23'D" FORTY THOUSAND BUMS EASILY

"I don't know," said Detective Taylor.

"Make it 40,000 easy," said Chief Byrne. And when they had made a rough estimate, it was concluded that 40,000 was about right. The figures were given in reply to a question propounded to Mr. Taylor as to the number of "bums" he has shipped out of town in freight trains during the 19 years of his service on the north side. Chief Byrne had objected that newspaper reporters are apt to say, when a tramp was ushered out of the city, that he was taken over the wagon bridge by the police. This, the chief said, was seldom done, the freight trains being handier and carrying the refugees farther.

Mr. Taylor has sent out as many as 200 tramps out on box cars in a single day, and has loaded forty of them in a single box car. The average number that are housed at the police stations and shipped out each year is more than 1,000, and these are no more than 40 per cent. of the total as all vagabonds who drift in in the morning are promptly billed to other fields. During 19 years of service, it is a conservative estimate that Officer Taylor has sent 40,000 tramps out of this city aboard reluctant and helpless freights.

## CONNOR HUSTLER FOR THE REDMEN

City Comptroller C. H. Connor has been presented with a handsome medal by the Grand Sachem of the Improved Order of Redmen, of the state. These medals or badges are the reward of assiduous labor for the lodge. They are called "Hustlers' badges," and are worn by men who have earned the reputation of hustling for the order.

The design of the badge is an eagle rampant, with a pendant suspended from its claws. The effect is pretty and artistic, and wearers regard these medals as treasures of which they may justly be proud.

## SALZER COMPANY IS BEAUTIFYING ITS BOULEVARDS

Residents in the southern portion of the city are expressing approval of the work done by the Salzer Seed Company in improving the walks about the block in which the offices and green houses are situated. The entire boulevard has been torn up, the sand removed and a rich loam substituted, and pretty shrubbery has been set out. This will make the Salzer block one of the prettiest spots in the city. It sets an example worthy of emulation by other business houses.

## AT THE THEATRES

Mount and del Mar at the Bijou this week have a singing act of real merit. Both possess magnificent voices and know how to handle them to the best advantage. Another big point in their favor is that unlike the ordinary singing act they sing songs that seem to meet with public approval where the majority of acts of this kind try grand opera selections of which the average person has had more than their fill. Both have had numerous engagements that perhaps would be more profitable with opera companies but they could not be together so they content themselves and are together in vaudeville. Mr. Mount before his marriage toured the world previous to an extended tour of the United States with the only American-English grand opera company ever sent to Europe, and the first to be organized in America. In England, Ireland and Scotland the company fared very well but after they got out of the country where the English language prevailed things were not so good but a very profitable tour was completed in San Francisco at the end of a five month tour. Both Mr. and Mrs. Mount, as they are known in private life, are pleasant and courteous, both having personal pride in their work, but not to such an extent but what they always have a pleasant word for those who are fortunate enough to be on the same bill.

MURDERER KABAT  
IS GUILTY

APPLETON, Wis., June 16.—After deliberating one hour and thirty-two minutes the jury in the Kabat murder case Thursday afternoon at 4 o'clock returned a verdict of guilty of murder in the first degree and the Reedsville man accused of one of the blackest crimes in Wisconsin's record of criminality will spend the remainder of his days at the state prison, two days in each year to be in solitary confinement.

Wentzel E. Kabat, the ex-convict who a year ago yesterday was released from Waupun, having served a term of two years for forgery, is supposed to have shot and killed and later burned the body of Michael McCarthy on a bonfire on the victim's farm three miles north of Kaukauna. The crime was committed on the night of Sept. 13 last. McCarty was a bachelor and lived alone. It was on the afternoon of September 13 that Kabat and Mrs. George Puchler of Green Bay came to the McCarthy farm and after a brief stay left, the former leaving the interurban car at Wrightstown and the later going to her home in Green Bay. The prosecution in the case argued that Kabat returned to the McCarthy farm sometime during the night and disposed of McCarthy before 7 o'clock the following morning, when Julius Heimke the hired boy arrived and found Kabat cleaning the kitchen and having already started a huge bonfire in the "ane some distance from the house."

Kabat on the morning of Sept. 14 told young Heimke that he had purchased the McCarthy farm, valued at \$17,000. After burning the bonfire for nearly two days Kabat proceeded at once to sell all the personal property on the farm, which was valued at \$3,000 and which he claimed he purchased for \$1,500. Kabat was in possession of the farm for ten days and had disposed of nearly all of the personal property before relatives of the missing man learned of his disappearance and became suspicious. It was not until Sept. 23 that Kabat was finally arrested, first being charged with kidnapping and later of murder. The authorities exhausted every resource in searching for McCarthy and it was not until Ald. Behrens of Kaukauna, who, while on the McCarthy farm searching for a clew came across a suspicious looking piece of sod in a gully in the lane not far from where Kabat had burned the bonfire. He lifted the sod and some distance under the surface found fragments of bones and ashes. Then young Heimke came to the scene and declared that he had seen Kabat burning ashes there, the latter declaring that he wished to fill up the depression and eradicate the mire. Subsequent search unearthed a quantity of bones, teeth, buttons and a buckle, which latter were examined by Dr. G. A. Dorsey of Chicago, who testified positively that they were human bones.

Early last September, Kabat, who was well acquainted with Mrs. Merritt of Green Bay, solicited her assistance in hiding his guilt and asked her to tell anyone inquiring for McCarthy that he had been at her home, but had just left. Kabat also asked Mrs. Puchler to say that she saw McCarthy in Green Bay on the night of Sept. 14, the night after his disappearance, but both women went back on him on the witness stand.

Mrs. Puchler, however, testified that McCarthy went to her home on Sept. 9 and assaulted her. The case is the most sensational ever tried in this section of the state and the murderer has been convicted entirely on circumstantial evidence, the bones found in the gully supplying the corpus delicti.

## PAYMENT OF FINES SETTLES

## Court Decides Riot at Schamm's Saloon Was Merely a Drunken Row

In the assault case coming from Schamm's saloon, east of the city on the Mormon coulee road, in which Henry Becker charged that while attempting to defend his brother from assault at the hands of Charles, William and Henry Jungen, John Kemp, John Krebach and William Wunch, he was badly beaten by the six assailants, a plea of guilty was entered yesterday.

Higbee & Hibbee for the prosecution and William F. Wolfe for the defense, met in the county court house

in the morning and the plea was the result of a conference in which the affair was dealt with as a drunken row. The court was not inclined to deal severely with the participants, and the judgment rendered was that Charles and Henry Jungen be fined \$2.50 each and the other assailants \$1 each, the fines totalling \$9. The defendants also paid the costs, amounting to \$33.27, the entire escapade costing them \$42.27. The fines and costs were paid and the defendants were dismissed.

## ABATTOIR ROAD TO BE ACCEPTED

## Although Farmers Say Contractors Fear Bad Storms Will Wash it Away

The roads and bridges committee of the county board of supervisors went to the abattoir road yesterday for the purpose of passing on the acceptance of the work done. It was said at the court house that there would probably be an acceptance of the job.

Farmers along the line of the work expressed the opinion yesterday

that the contractor was in a hurry to have the acceptance attended to, owing to the likelihood that a bad storm would render the embankment a shapeless pile of dirt. This, it is said, is not the fault of the contractors, but is due to the fact that the soft dirt used is incapable of withstanding the wear and tear of the elements, and should have been ripped. Portions of the road that come in contact with bodies of water are said to already show the effect of the wash in storms.

## Attention!

THOSE best informed agree that the Salvation Army do an important and useful work among the downtrodden and criminals.

As the people are responsible—in part—for these schools of vice and lawlessness, should we not build a Salvation Army or Mission Hall or Meeting House, for schools of entreaty to better lives? To give or furnish the money without interest.

Perhaps some Building Contractor can easily solicit the money and would like to build the Hall.

## FORTY-FIVE GRADUATE FROM LAWRENCE

APPLETON, Wis., June 16.—Forty-five seniors, attired in caps and gowns, occupied front seats at the Methodist church yesterday morning and listened to the eloquent words of Dr. George Elliott of Detroit, Mich., who several months ago was their choice as the man to deliver the commencement day address. This is the largest class that has ever been graduated from Lawrence university. Dr. Elliott selected as his subject, "The Golden Age," and spoke in part as follows:

"In any class or rank of people we find two distinct divisions, the brights

and blues, or more philosophically termed the optimists and pessimists; he who views the world according to the way it is made up and on the other hand he who sees the inward connection he bears with the relative forces of this earth, God's handiwork. The optimist will see nothing but sunshine and happiness, it matters not how dark and stormy the day may be. The pessimist will find fault with the most divine days in June when the birds are singing the sweetest and the sun's days are the warmest and softest. This latter class are they who never accomplish anything in this world, but let their brother and co-worker optimist take the reins of advancement into his hands and do as he pleases without advice or counsel from the other.

"Honest and undivided effort can alone cure the ills of life and heal the wounded spirits. The city of success toward which we all are striving is gained only through the opposing of ills and the conquering of the tides of this world's troubles. "This world is not so bad but what we all are content to spend a few more years at least in it, and furthermore, it is not so good but what it is worthy of every man's effort to make it better. We, in this country, are contributing as much toward the bringing about of the golden age as any other country on the globe, but that is not the point. We, as the leading nation of the world, should be an exemplary nation and lead the other people to live and move according to our guidance."

## SENATOR MORRIS DELIVERS ADDRESS

Senator T. Morris Thursday night delivered the baccalaureate address at the commencement exercises of the Winona Young Ladies' Seminary in that city.

A delightful musical and literary program was carried out in the presence of a large number of relatives and friends of the graduates.

Bishop J. B. Cotter presided during the evening and presented the diplomas to the six young lady graduates.

## Interesting to Asthma Sufferers.

Daniel Bante of Ottumwa, Iowa, writes: "I have had asthma for three or four years and have tried about all the cough and asthma cures in the market and have received treatment from physicians in New York and other cities, but got very little benefit until I tried Foley's Honey and Tar which gave me immediate relief and I will never be without it in my house. I sincerely recommend it to all." Sold by O. T. Erhart.

## ANNOUNCES CANDIDACY.

To the Voters: I hereby respectfully announce myself a candidate for the republican nomination for the office of clerk of the court at the coming primaries. ROBERT (PUNCH) ROBERTSON.

## OARSMEN NAMED BY O'DEA

MADISON, Wis., June 16.—At the training table Thursday, Coach Andrew O'Dea gave out the names of the men who will row in the Wisconsin shells at the Poughkeessie regatta on June 23. The varsity and freshman crews will be taken east. They will row as follows:

Varsity—Bow, Burling (capt.); 2 Johnson; 3, Wilder; 4, Swisse; 5, Davis; 6, Ruth; 7, Hine; stroke, Lea; Coxswain, Burke.

Freshman—Bow, Wohrab; 2, Drew; 3, Hanson; 4, Steinberg; 5, Loomis (capt.); 6, Johnson; 7, Brumder; stroke, Dietet; Coxswain, Eates. All Experienced Oarsmen.

Every one of the varsity crew is an experienced oarsman, having rowed one or more years on the Hudson. The freshman boat, it is claimed, is the fastest that has ever been sent out of Wisconsin.

Thursday morning the last trial spin on Mendota, was taken. The crews, accompanied by Coach O'Dea, Commodore Beye and Graduate Manager Emmett D. Angell, left at 6 o'clock this morning, arriving at their headquarters in Poughkeessie Saturday afternoon.

Coach O'Dea will not return to Wisconsin after the race, but will go direct to his ranch in Idaho, where he will engage in sheep raising.

Badgers to Play Illinois. Graduate Manager Angell of Wisconsin received word from the athletic authorities at the University of Illinois tonight that a game of football had been scheduled with the Badgers for next fall. The game will be played at Urbana on Nov. 10.

## Bird Tells What Democrats Must Do to Win in State in 1908

MILWAUKEE, June 16.—The following letter from Col. George W. Bird, the well known attorney of Madison, to M. J. Regan of this city, contains pertinent views on the political situation. Col. Bird, as is well known, is one of the old time loyal Democrats and stood firmly by his party when some of those who are now shouting very loud for the third candidacy of Col. William J. Bryan for the presidency were stabbing him and his party in the back in the hope that with political assassination of Mr. Bryan, which they had hoped to encompass, would root out all the principles for which Mr. Bryan stood then and stands now. The observations by Col. Bird about the failure of the Democratic party of Wisconsin to stand without falter for those principles are very appropos. The letter follows and furnishes food for reflection to all thoughtful, purposeful Democrats.

Madison, Wis., June 11, 1906.—Mr. M. J. Regan, Milwaukee, Wis.—My Dear Mat: The action of the Democracy of Indiana, Missouri and some other states in declaring for Col. W. J. Bryan for president in 1908 is especially gratifying. You have undoubtedly rejoiced over it as I have. The speeches made in connection with the declaration are as significant as the declaration itself. ExGov. Francis,

### CLEANLY WOMAN.

Erroneously Thinks by Scouring Her Scalp That She Cures Dandruff.

Cleanly woman has an erroneous idea that by scouring the scalp, which removes the dandruff scales, she is curing the dandruff. She may wash her scalp every day, and yet have dandruff her life long, accompanied by falling hair, too. The only way in the world to cure dandruff is to kill the dandruff germ, and there is no hair preparation that will do that but Newbro's Herpicide. Herpicide by killing the dandruff germ, leaves the hair free to grow as healthy Nature intended. Destroy the cause you remove the effect. Kill the dandruff germ with Herpicide. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

the chairman of the Missouri convention, a member of President Cleveland's cabinet and differing with Col. Bryan in 1906, was especially happy in his speech. It should be read by every democrat who hopes to put his party on the road to success in coming battles. After congratulating the national democracy upon the disappearance of differences and declaring that "there are no differences between us now," he said in part:

"There seems to be one sentiment concerning the next standard bearer of the Democratic party. This sentiment pervades the hearts and minds of the Democrats of the nation. You know to whom I refer. I have differed with this man on a question of principles. But never have I doubted his integrity, his singleness of purpose, and his loyalty to what he believed to be right. I have known him for twelve years, and in that time I have known nothing of him but what is tribute to his splendid courage as a statesman.

"I have never questioned his patriotism, and no one has dared to utter a doubt as to his courage of expression. Today as a distinguished private citizen of the United States he is journeying around the world. The consideration with which he has been received by all the governments he has visited shows the estimate which they place on a typical American.

"The dignity with which he received the honors heaped upon him shows the breadth of his mind, shows that he has gained by experience, shows the comprehensive character of his sympathy and demonstrates beyond peradventure his ability to fill any office within the gift of the American people. In uttering these words of commendation, and admiration if you will, I feel that I am doing simple justice to a man whose every utterance and every act has borne out the truth of what has been claimed for him by his friends—that is, that William Jennings Bryan is a sincere lover of liberty and patriotic citizen of the United States."

The press accounts add that the mention of Bryan's name was the signal for great applause. Other speakers gave an equally warm endorsement to the Nebraskan as a national leader."

The estimates thus warmly expressed by Gov. Francis accords with the sentiments of the vast majority of Democrats; and the views of Col. Bryan on public questions reflect the principles of sound Democracy. The expression of them in party platforms and by party candidates will arouse enthusiasm and unite and solidify the great Democracy of the country. It will energize its efforts and transform it into an advancing host that will secure victory.

I am persuaded that the unsatisfactory result of recent state campaigns has been largely due to failure to declare these views in platforms and through candidates, confidently, and without hesitation. It has caused many to waver in party allegiance, and to favor one or the other faction of the Republican party, and thereby to bring reproach upon their own party. This can be remedied only by making platform declarations that will voice the overwhelming sentiment of the Democracy and by placing on such platforms candidates who are in hearty sympathy with the declarations, and who enjoy the confidence of the people. If that be done Wisconsin may be won for Democracy; it is not done the state must continue to be given over to the two fighting factions of the Republican party, to the great detriment of the people.

Give us a Democratic platform, Democratic candidates, a Democratic campaign and the people will give us victory. Very truly yours,

GEO. W. BIRD.

## Gund's Peerless Beer

Acts as a tonic and aids digestion, enriches the blood wonderfully and promotes the health and longevity of men and women. **Peerless** is really a temperance drink, **because** it never contains more than 3 1/2 % of alcohol—not enough to hurt anyone.

Dr. I. M. P. Southwick, La Grange, N. C., says: "I do **not** think the moderate use of good beer injurious to the health of adults. I believe it to be a great benefit to some people both as a beverage and by aiding digestion and assimilation. **I think beer is of food value to the human organism.**"

## ART EXHIBIT.

Through the courtesy of Mr. William Vernon, an art critic of Chicago, the Twentieth Century club and the members of the Y. M. C. A. enjoyed the privilege of inviting their friends to an exhibit of the paintings of Svend Svendsen. Svend Svendsen is a young Norwegian who might be said to be a disciple of Fritz Thaulow the most celebrated of living Norwegians, or dead for that matter, for it is only a decade or two since the Scandinavians have taken a leading place in the world of art. Svendsen really was not a pupil of Thaulow in the accepted sense as he only imbibed something of the art of the famous man as he labored over the hills in the capacity of "color bearer" and listened to the flow of art talk or followed with his quick eye the great masters brush as it flew over the gleaming canvas, but he learned enough of art through close communion with nature and the influence of Thaulow to make him as easily the

peer of any artist of Norwegian birth residing in America. But he only lives in America every other year, the odd year sees him back in his loved hills and snowy fields just over Christiania. For the past few years he has given much attention to the sea and the results are captivating. "The level sun glides with his latest gold the heaving brine."

"The North wind rears the Baltic to a foaming fury," "The Moon Enchanted Sea," in the present exhibition shows how carefully he has studied the moving waters. A number of years ago Svendsen took the first Young fortnightly club prize at the Art Institute of Chicago.

## BANKER'S WIFE DIES IN AUTO

KANSAS CITY, Mo., June 16.—Mrs. C. H. Patterson, wife of the president of the Bankers' Trust company of this city, was instantly killed last night when the large automobile in which she was riding with her husband, daughter and the driver, L. A. Phillips, collided with two trolley cars at Fifth and Harrison streets, causing the gasoline tank on the machine to explode.

The other occupants of the automobile escaped serious injury.

The two cars met at the point where the automobile had stopped and both cars hit the machine. An explosion followed immediately, and Mrs. Patterson apparently received the full force of it. Mr. Patterson, his daughter Eloise, and the driver escaped with a few bruises.

## IT IS THE MISTAKE OF A LIFE TIME

to be aware of nervous weakness, or some other ailment, thinking the trouble will abate in time, not realizing that the results must be disastrous if such troubles are persistently neglected. No man suffering with nervous trouble, caused by overwork, excesses or carelessness can afford to jeopardize his future happiness by neglecting to take treatment while relief can be obtained from medical treatment. You can, if a victim of any such trouble, be relieved and unless the trouble is too chronic, be cured, if you will take treatment now. Dr. Turbin, whose monthly visits to our city are looked forward to by scores of people who consider the Doctor their benefactor, and of whom they say "may his good work continue," has won his success by hard, honest work, by genuine methods, by undivided and devoted study and by his fifteen years conscientious work in the state, among our friends and neighbors, he has earned the reputation of being a skillful, reliable and thoroughly trustworthy physician in whom any can place the utmost confidence. This is the record of training and experience, this the evidence of his skill. He is here to cure sick people, and that he does cure them, even after the efforts of others have proved powerless, is attested by numerous statements.

Dr. Turbin may be consulted free of charge when he visits La Crosse, at Hotel La Crosse, Monday June 18.

"Bargains" are ground out by the "mills of competition." The French say: "A good bargain is a pick-purse." It is nearer the truth to say that the bargain-hunter (the ad. reader) is purse-cautious.

# ORINO Laxative Fruit Syrup

Pleasant to take and does not gripe or nauseate

## Cures Chronic Constipation, Stomach and Liver Trouble

## Stimulation Without Irritation.

ORINO Laxative Fruit Syrup is a new laxative syrup combined with the delicious flavor of fruits, and is very pleasant to take. It will not gripe or sicken. It is much more pleasant and effective than Pills, Tablets and Saline Waters, as it does not derange the Stomach, or irritate the Kidneys, Liver or Bowels.

## Constipation.

ORINO Laxative Fruit Syrup will positively cure chronic constipation as it restores the natural action of the intestinal tract. Ordinary cathartics may give temporary relief but the stomach is upset and the bowels are irritated without any permanent benefit having been derived.

The condition of the patient remains unchanged. The Stomach, Liver and Bowels have not been stimulated and in a few days a stronger purgative may have to be taken. This is why Pills and Aperient Waters never give permanent relief. Their violent action results in an unnatural movement of the bowels and it is necessary to keep taking them indefinitely.

## Why ORINO is different.

ORINO Laxative Fruit Syrup is the only preparation that really acts upon all of the digestive organs. Other preparations act upon the lower bowel only and do not touch the Liver. It can very readily be seen that a preparation that does not act upon all of the digestive organs

can not cure Chronic Constipation, Torpid Liver, Indigestion, Sour Stomach, etc.

## For Biliousness and Sick Headache.

Take ORINO Laxative Fruit Syrup. It sweetens the stomach, aids digestion and acts as a gentle stimulant on the liver and bowels without irritating these organs.

## Clears the Complexion.

ORINO Laxative Fruit Syrup stimulates the liver and thoroughly cleanses the system and clears the complexion of pimples and blotches. It is the best laxative for women and children as it is mild and pleasant, and does not gripe or sicken. Refuse substitutes.

Take ORINO Laxative Fruit Syrup and if you are not satisfied your money will be refunded.

Can't Find Perry Heath.
Washington, June 16.—In the trial of Green and Doremus on charges growing out of the sale of canceling machines to the government for the postal service, Harvey Givens, chief clerk of the district attorney's office was asked what effort had been made to subpoena Perry S. Heath. He replied that he had made every effort possible. Three subpoenas which had been issued for Heath were returned unanswered.

He Is the Champion Shot.
Washington, June 16.—Complete records of rifle, pistol and carbine firing in the United States army for 1905 how Abraham Hill, a sergeant in the Twenty-fourth infantry, stationed in the department of Dakota, to be the best shot in the army. The percentage of possible shots made by him on slow fire and skirmish fire was 8.33.

Economy Gets a Bump.
Grand Rapids, Mich., June 16.—Mayor Ellis' notions of economy and thrift in municipal affairs were bumped hard by election officials, who placed three or four men in each booth instead of the two designated by the council. These men are also demanding more than eight hours. In several precincts three votes were cast, costing the city \$3 apiece for inspectors' salaries alone.

Landed Sitting and Unhurt.
Ann Arbor, Mich., June 16.—The 18-month-old son of Mr. and Mrs. William Corson fell from a second-story window to a cement sidewalk. Half way down he struck a wire which landed him in a sitting position, but he arose and toddled back into the house apparently uninjured.

Best Gas Well Yet Opened.
Paris, Ill., June 16.—The best gas well yet opened in the Edgar county field was struck on the farm of J. F. Craig, near Warrenton. It is the second one developed in that vicinity in a few days, both being strong producers and showing a steadily increasing pressure.

Lives Lost at a Fire.
Fulton, N. Y., June 16.—Joseph Le Roy, Richard Hinch and Lewis Holden, of this place, lost their lives in a fire at the Allen excelsior and butter tub works. It is supposed they were overcome by smoke and that the flames spread so rapidly that their escape was cut off.

Had a Double Knot Tied.
Muncie, Ind., June 16.—Although they were legally married in an adjoining county several weeks ago, Fielden W. Puckett and Mrs. Rilda McClain were again married at their home in Muncie, fearing the first ceremony might not have been binding. They had the second ceremony performed at the solicitation of their friends, they said. The law says that a bride must live thirty days in the county where the license is issued, and it was this clause that the Pucketts feared nullified their first marriage.

Cholera Among the Hogs.
Noblesville, Ind., June 16.—Farmers in Hamilton county have suffered heavy losses in the last few weeks on account of hog cholera. Thirty hogs belonging to A. W. Orr and sixty belonging to I. A. Carey have died within a week. Farmers in adjoining counties have also lost many hogs from the same disease.

TEN YEARS IN BED.
R. A. Gray, J. P., Oakville, Ind., writes: "For ten years I was confined to my bed with disease of my kidneys. It was so severe that I could not move part of the time. I consulted the very best medical skill available, but could get no relief until Foley's Kidney Cure was recommended to me. It has been a God-send to me." Sold by O. T. Erhart.
